

Welcome to the first day of orientation!

We wanted to give you a heads up about a couple of big events are coming up for you that relate to our Instructional Technologies Group. This Friday, you will be receiving your new iPads and technology welcome package at the White Coat ceremony. On Monday and Tuesday, you will have your iMedEd and iPad orientation with our team.

We have a lot of great things to cover with you on Monday and Tuesday and we really need your help to make the most of these two days. You will be receiving some information from our team regarding some “homework” items that we need you to complete *before Monday*.

Below is the first set of items that we need you to work on this week...don't worry, they don't take very long. Once you get your iPads on Friday, we'll have some additional items for you to complete.

My team and I are available via email all week if you have any questions, concerns, or issues. You can reach us at UCiMedEd@gmail.com and one of us will respond to your email in a timely manner.

Technology “Homework” Tasks:

- Set up your School of Medicine, aka “HS” email account
 - Please review today's handout for detailed instructions
- Create an AppleID by going to <https://appleid.apple.com/>
 - If you already have one created, then you don't need a new one
- Register for a free Dropbox account at <http://www.dropbox.com>
